## **FOR IMMEDIATE RELEASE – Care Close to Home Campaign**

Temiskaming Shores, ON, June 28, 2016 – Temiskaming Hospital is pleased to announce that Susan Cavanagh has graciously accepted the role of Campaign Chair for the *Care Close to Home Campaign*.

The *Care Close to Home Campaign* has been launched to help Temiskaming Hospital raise \$6.5 million to support the acquisition of new medical equipment and technology that will help ensure the long-term viability of the hospital, as well as, assist in the recruitment and retention of doctors and health care professionals.

Without this Campaign, many essential equipment purchases and upgrades would not be possible as the Ministry of Health and Long-Term Care does not fund medical equipment purchases. We need to fundraise with the community.

As a current member of the Temiskaming Hospital Foundation, Susan has been a passionate supporter of the hospital for many years and understands the importance of this campaign to the future of our hospital.

Joining Susan will be numerous influential local business and community leaders, who all share in the belief that Temiskaming Hospital is a vital institution in our community and must be able to provide the best possible healthcare to our residents, patients and families – *Care Close to Home*.
